App. No. : 09/879,364
Filed : June 12, 2001
For : MEDICAL VALVE WITH POSITIVE
FLOW CHARACTERISTICS
Examiner : Kevin C. Sirmons
Group Art Unit : 3763

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

Enclosed is an Information Disclosure Statement by Applicant (PTO/SB/08 equivalent) listing certain other applications and issued patents owned by the assignee of the present application. During the examination of U.S. Application No. 10/163,719, the Examiner asserted that certain dependent claims were not supported by the specification. Applicants disagreed, but cancelled such claims to expedite allowance of other claims in that application, and reserved the right to pursue such claims in other applications. Certain dependent claims in this application include language similar to the language from such cancelled claims. Also, please note that one of the applications from which the present application claims priority has issued as a patent and that patent is currently involved in a reissue proceeding.

This Information Disclosure Statement is being filed before the mailing date of a final action and before the mailing of a Notice of Allowance. This Statement is accompanied by the fees set forth in 37 C.F.R. § 1.17(p). The Commissioner is hereby authorized to charge any additional fees which may be required or to credit any overpayment to Account No. 11-1410.
